FULL STACK DEVELOPER

A Full Stack Developer experienced in building scalable MERN applications, secure RESTful APIs, and real-time features with Socket.IO. Skilled in React/Next.js, automation workflows, API integrations, and efficient data handling using MongoDB and MySQL. Strong in deployment and server management with Nginx, Windows Server, DNS configuration, AWS, Vercel, and Render. Committed to writing clean, high-performance code and delivering practical, real-world solutions.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript , HTML5, CSS3
- **Libraries & Frameworks:** React.js, Node.js, Next.js
- **DataBase:** SQL, MongoDB
- **Deployment :** Windows Server, Nginx, AWS(Basic)
- **Tools & Platforms:** Git, npm, Visual Studio Code, Postman
- **Other Skills:** Responsive Design, Firebase, MySQL Workbench

EDUCATION

Bachelor of Engineering in Information Technology

2021-2025

B H Gardi College of Engineering and Technology

- CGPA : 7.61

PROJECTS

API - Management

Built a full-featured API Management Dashboard with React (frontend) and Node.js/MongoDB (backend). Implemented API configuration, key management, dynamic MongoDB validation, activity logs, real-time charts, and role-based access with a modern responsive interface.

H Cart

H Cart is a full-stack e-commerce app built with Next.js and Node.js, featuring product browsing, cart management, and secure order processing. It includes an admin panel (Node.js + EJS) for managing products, customers, and orders, with MySQL powering efficient data handling.

TaxiTime

TaxiTime is a MERN-based online taxi booking platform using MySQL, featuring instant and scheduled ride booking, real-time tracking with Socket.IO and Google Maps API, and secure login with JWT and OTP. It includes an Admin Panel to manage users, drivers, rides, and payments, designed for scalability, security, and a smooth user experience.

EXPERIENCE

Actowiz Solution PVT .LTD Duration : July 2025 to continues

- Currently developing interactive dashboards and full-stack web applications using the MERN stack. I design dynamic UIs with React.js, build and maintain RESTful APIs, and work with complex MongoDB queries for efficient data management. I also integrate third-party APIs for data visualization and contribute to both frontend and backend, focusing on scalability, performance, secure authentication, and enhanced user experience.

Hexagon infosoft Solution PVT .LTD Duration : January 2025 to June 2025

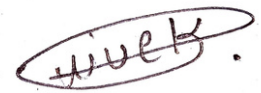

- worked as a Full Stack Development Intern at Hexagon infosoft solution Pvt.Ltd, where I was responsible for developing and optimizing web applications using the MERN stack and MySQL. My role involved building and integrating RESTful APIs, implementing secure authentication systems using JWT and OTP verification, and developing real-time features with Socket.IO. Additionally, I contributed to the Admin Panel and user dashboards, enhancing UI/UX, form validations, and API security. Throughout the internship, I gained hands-on experience with Git, version control, database management, and deployment, further strengthening my skills in full-stack development.
